

# Auto Flush

## *Automated Toilet Flushing System*

Our touch-free, cost-effective flushing systems promote good hygiene by eliminating potential points of cross-contamination. Ensuring that fixtures are flushed after every use also prevents odours. Auto Flush Systems are available for toilets and urinals.

### By installing auto flush, you benefit from:

#### **A Healthy, Safe Environment**

Protect your employees and guests from the spread of infection by offering user-friendly, touch-free flushing technology.

#### **Malodour Prevention**

Prevents malodours by ensuring that fixtures are flushed after every use, for toilets and urinals.

#### **Innovative Technology**

Battery life lasts for 3 years or 600,000 flushes for clamp, 100,000 for side-mount or tank. (4 batteries included).

#### **Versatility**

Side-mount, clamp, and tank options make it easy to convert any fixture in minutes and without disruption to users.
