

Actiwipe

Health Canada DIN Approved Agent

Actiwipe is our exclusive, non-liquid disposal agent designed specifically to treat menstrual waste. This unique disinfectant treats sanitary disposal units on the outside, and on the inside with penetrating vapours. The only DIN registered product designed specifically to treat menstrual waste.

actiwipe

Neutralize odours and sanitize waste

A Safe Solution

Created from natural actives, Actiwipe does not contain or produce any hazardous chemicals.

Eliminates Malodour

The natural plant extracts and essential oils penetrate the disposal unit, around, between and through the waste, neutralizing odours.

Based on Evidence

This proprietary agent is registered by Health Canada as an industrial and institutional disinfectant, effective for use in sanitary napkin disposal units.

Menstrual Hygiene Disposal

Product Overview

Key Features and Benefits

- ✓ Powerful natural, vapour phase germicide disinfects all contents and surfaces, including the lid.
- ✓ Product testing demonstrates extremely high level of efficacy against broad range of pathogenic bacteria.
- ✓ Ecologically sound - Non-toxic and natural in origin replacing the use of noxious and hazardous chemicals. 100% Biodegradable card.
- ✓ Protects users, service operators and business reputation.

How Does Actiwipe Work?

Actiwipe is based on our patented, natural vapour technology and tested to ensure sanitising activity between service calls.

The active components are based on a unique blend of volatile, natural plant extracts. The first noticeable effect is the immediate fragrance action which creates a pleasant aroma in the surrounding room.

The natural anti-microbial vapours then permeate the whole unit and continue to be effective even when the waste unit is full.

The totally dry system has been specifically developed to release the natural germicide in a controlled manner to ensure total natural anti-microbial coverage.

Specifications

DIN Approved: DIN# 02446839

**Let us do the dirty work
so you don't have to**

Citron Hygiene Certified Technicians maintain each system on a pre-determined schedule.

All sanitary waste is removed discreetly from your premises.
