

Reopening Checklist

Helping businesses **stay open**, not just reopen!

- Contact Citron Hygiene to speak with your local **Hygiene Consultant** about reopening
- Review facility and arrange a time to have **Professional Disinfection Services** performed
- Complete deep clean of restrooms and all fixtures using **Sani-Restore®**
- Implement **Hand Sanitizer Service** in key, high traffic areas of the facility
- Provide a **hygienic closed receptacle** to dispose of used personal protective equipment, as **recommended by the World Health Organization**
- Reduce risk of cross-contamination in restrooms using **touch-free fixtures** (dispensers, AutoFlush®, AutoFaucet®)
- Place **personal hygiene disposal** units in restrooms to minimize user's risk to harmful bacteria and viruses
- Ensure stock of key **consumable hygiene products** (disinfectants, paper towel, toilet paper, soap)
- **Display** labeling provided by Citron Hygiene that educates patrons on the hygiene measures within the facility (proper handwashing sign, social distancing practices, ect.)
- Meet with employees to **discuss the newly implemented hygiene measures** and how to handle customer inquiries regarding hygiene
- **Update the public** on the proactive hygiene measures your business has made using social media
